LOCAL DEVELOPMENT GLOBAL

"Creative Cities" is a European project within the Central Europe Programme. It stands for Development and Promotion of Creative Industry Potentials in Central European Cities. The project supports the potential of creative industry as the local and regional development factor attracting investors and creating work places. Cooperation is foreseen between five Central European cities: Leipzig (DE), Genoa (IT), Gdansk (PL), Ljubljana (SI) and Pecs (HU). The project runs until December 2012.

Creative industries are defined as those which "have their origin in individual creativity, skill and talent and which have a potential for wealth and job creation through the generation and exploitation of intellectual property." (UK Department of Culture, Media and Sport 2001). Creative industry clusters can build a strong economy ready for worldwide competition by attracting other sectors.

CREATIVEINDUSTRIES:

- advertising
- architecture
- arts and craft
- desian
- film, photography, music
- media
- software and computer games
- publishing
- visual and performing arts

PROJECT AIM

The main aim of the project is to establish a transnational network of creative industry clusters of major Central European cities and stimulate the interaction between cluster's economic entities.

Ways leading to achieve the **project aim**:

- elaboration of principles on creating and developing creative clusters (linking the micro, small and medium enterprises with universities, local authorities, research institutions, etc),
- promotion of the creative industry potential,
- launching the creative industry clusters as a trigger and catalyst of the revitalization processes of the cities decayed areas.
